

ES-275 Thinline

The Classic Jazz Box, Meets Semi-Hollow Versatility

The newly designed Gibson ES-275 Thinline is a unique take on one of our most iconic silhouettes, the Gibson jazz box. Featuring a thermally engineered chambered maple centerblock and thermally engineered quarter-sawn Adirondack spruce bracing, this guitar offers lightweight semi-hollowbody characteristics in a timeless archtop package. The Dark Rosewood fingerboard and Rounded "C" neck profile provide a comfortable feel with easy access to all 22 frets. Armed with Memphis Historic Spec II (MHS II) pickups and the Memphis Tone Circuit Premiere (MTC Premiere) wiring assembly, the tonal possibilities are truly limitless. AAA figured maple veneers are dressed in Cherry Cola.
